

Sunset Beach Kiteboard Area Location and Rotation Schedule

The Kiteboard Launch and Land zone will consist of a beach set up and launch/land zone and an in-water entry and exit zone. The beach set up and launch/land zone will be marked by barricade signs and checkered flags positions at the berm line and back beach. The beach set up and launch/land zone will span approximately 300 feet up coast and down coast. Lifeguards will request that non-kiteboarder beachgoers, keep clear of the sand and water area within the marked Launch and Land zone when flags are posted.

The Kiteboard Launch and Land zone will be rotated at the approximate half-way point of the summertime period to alleviate the impact the zone has on non-kiteboarder beach patrons and residents. The zone locations and rotation schedule are as follows:

ZONE LOCATIONS

9th-11th-
